Events – Lunch & Learn Webinars

Wednesday, November 9, 2016, noon – 1:00 PM

Topic: The Hidden Enemy: Malvertising and Ransomware

Presented by: Brian Henger
Regional Vice President
Malwarebytes

Description: Malvertising is becoming more sophisticated and prevalent—and is the vehicle of choice for injecting ransomware. As these attacks increase, you need to be able to recognize the patterns and disarm the threat within seconds before your company data is held hostage. Better understand of the impact of malvertising and ransomware.

Learning Objectives: Learn some of the biggest misconceptions, and see how these attacks are delivered and why your company may be at risk—without you even knowing it.

1. The growth in malvertising and malvertising-based ransomware.
2. A better understanding of the tactics and techniques cybercriminals use to deliver and cover up their malvertising campaigns.
3. Tools and solutions to help detect, eliminate, and protect your business.

Events – Lunch & Learn Webinars

Wednesday, December 7, 2016, noon – 1:00 PM

Topic/Theme: How can we enhance our end users experience?
A pragmatic approach to improving provider & clinical end user log on times.

Presented by: John Flamand

Manager-Systems and Operations Management and Compliance (SOMC) practice
Lochbridge

Description

A large not for profit multi-hospital health system wanted to identify ways to enhance their end user (provider) experience. They suspected issues with extended log on times for their providers, clinical end users and general users. Knowing they had good people who manage their infrastructure i.e. server, network, storage, MVD & desktop engineering e.g. They also realized their infrastructure teams operated in silos and many of the issues involved multiple infrastructure teams. The Health System required identification of bottlenecks across their infrastructure silos.
